## 5. FIRE FIGHTING MEASURES

This product is **not** combustible.

## 6. ACCIDENTAL RELEASE MEASURES

Spills on floors will produce a slippery surface. Signage preventing foot traffic should be erected where appropriate.

Minor spills (up to 20 litres) should be diluted with water, neutralised where possible and removed with mops, absorbed with Mineral Sponge, dry rags, paper, sand, or soil. It may be possible to drain small neutralised spills to wastewater where this is permitted.

Large spills (drums and IBC's) should be contained from local drainage with any suitable bund or barrier. If possible dilute the spill without increasing the possibility of non-containment, and clean up with absorbant material such as Mineral Sponge, dry earth, sand, or soil. Where a liquid suction cleaning machine is available, it should be used only after neutralising the spill.

## 7. HANDLING

**Precautions for Safe Handling:** Keep out of reach of children. Read label before use. Keep away from open flames and hot surfaces **due to smell if burnt.** No smoking. Avoid release to the environment.

## 8. STORAGE

**Precautions for Safe Storage:** Store in a well-ventilated place. Keep cool. Handle to prevent damage to containers. Should packaging be damaged, repack into clean and dry containers of the same type and mark the product name carefully on the container. Always replace lids and caps after using the product. Return all packages to safe storage as soon as possible after use.
